Empowering Youth for Ecological Transition

OUR PROJECT

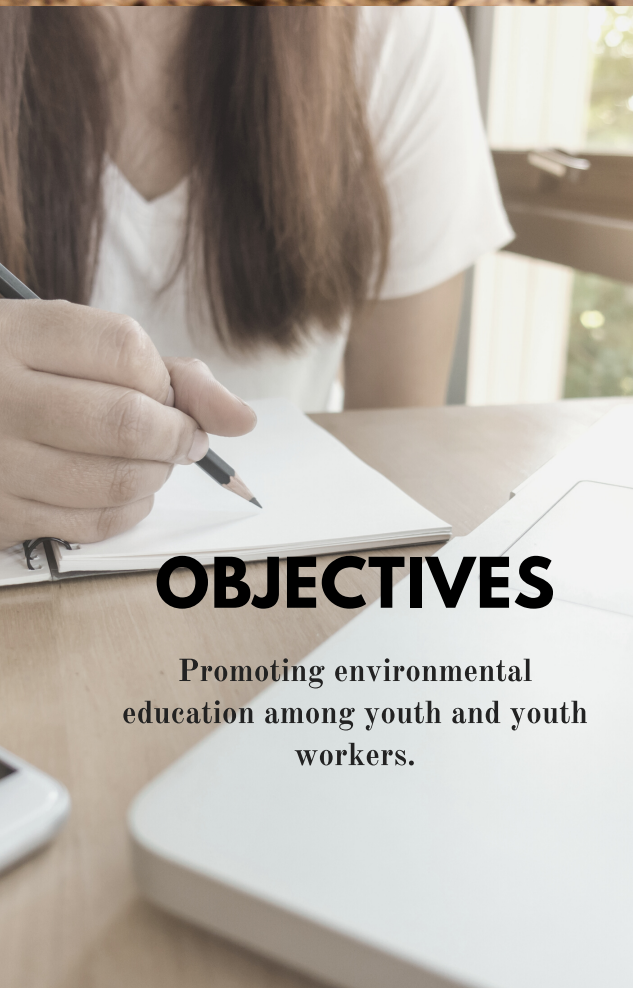

EYFET (Empowering Youth for Ecological Transition) is an environmental project coordinated by **Concello de Porriño** (Spain) in collaboration with:

- IES Ribeira do Louro (Spain)
- Associação Portuguesa de Educação Medioambiental - ASPEA (Portugal)
- Universidade de Cabo Verde
- Associação de Educação de Jovens e Adultos de Nampula - ASEJANA.

Concello do Porriño

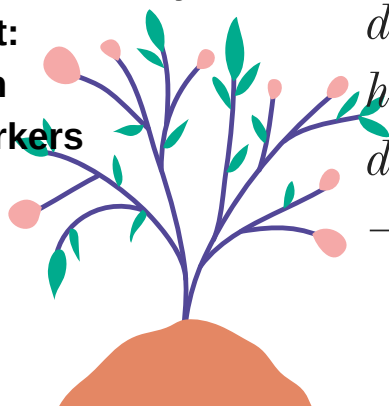

OBJECTIVES

Promoting environmental education among youth and youth workers.

- Implement a methodology to analyze the state of the environmental art at the regional level and develop a meaningful mapping.
- Prepare a manual of good practices for individuals, public institutions and private industries and companies.
- Prepare a comparative analysis to identify good practices and implement a transfer of knowledge in these areas of specialization among partners.
- Raise awareness about environmental challenges and involve the entire community in ecological measures to mitigate climate change.
- Empower local institutions and NGOs to develop cooperation actions

The activities will be directly aimed at:

- Youth
- Youth workers

“You cannot get through a single day without having an impact on the world around you. What you do makes a difference and you have to decide what kind of a difference you want to make.”
—Jane Goodall

Project meeting in Portugal

Project partners had their first face-to-face meeting in Lisbon, the capital city of Portugal. The event was a big opportunity for the partners to get together and understand the needs of their mates in such a context of cultural diversity. The state of the art from the different countries showed that there has been some effort done, but we still have to work hard in order to show future generation the importance of environment for life in earth.

This meeting was the first mobility event, aimed at youth workers, which will transmit the knowledge acquired during the project to the youngest citizens, in order to concern them to take part actively in a healthy environmental management.

Partners from Mozambique, Cape Verde and Spain were invited to the event, coordinated by the Portuguese partners from ASPEA

Coming soon...

VI Congresso Internacional
de Educação Ambiental dos
Países e Comunidades de
Língua Portuguesa

Our next meeting will take place in Cape Verde during the abovementioned congress. This meeting will get together all the consortium members, as well as youth workers. The aim of this event will be to continue with the development of the project objectives. Youth workers will exchange experiences and will also learn one from each other for a common goal: environmental respect.

The congress will be a unique opportunity to share experiences and knowledge on the project and creating capacities to implement awareness actions when they go back to their countries.

Hosts from Cape Verde University will show their colleagues the challenges faced in the country due to water stress and waste accumulation.
